

ACCENTURE STRATEGY IS INTERESTED IN MEETING YOU!

Accenture Strategy consultants work together with CEOs and top management of the leading Nordic and global companies in project assignments ranging from growth and digitalization strategies to operational efficiency and technology strategies.

We would be happy to see new talent joining our team! This spring, we invite students from second year and up to have fun with our consultants, visit our new office and enjoy a delicious dinner. As our internship application period will be open at the same time, you will have a good chance to ask us about application process, tips for interview and any other things you have always wanted to know about consulting.
