

M&A Workshop, March 21–23, 2019, near Paris

Discover the full extent of mergers and acquisitions with BCG—from the initial idea to closing the deal. Based on a real BCG project, you will gain insights into a live transaction and be given the opportunity to apply the knowledge you have acquired so far in a broader corporate finance context.

Together with BCG consultants from our dynamic Corporate Finance & Strategy, and Private Equity practice areas, as well as 60 students from top European universities, you will analyze the strategic rationale of the deal, assess the target company, quantify the potential synergies, and structure the execution of the transaction.

Apply now to join us in a French château for our 10th anniversary edition of this workshop. Enhance your problem-solving and presentation skills, receive invaluable tips from our experienced consultants, and have all your questions answered. Network with our consultants and your peers, and exchange thoughts on career opportunities, both in the business world in general and at BCG in particular.

We are seeking outstanding university students who are studying finance, economics, business, or similarly quantitative subjects with an affinity for either corporate finance, strategy or private equity, demonstrated through studies or extracurricular activities, to attend the workshop.

Curious?
